APPLICATION

- **Guide rule:** run arches in a row so pools join into one walking line — for glowing sculpture people stop at, see ORB.
- **Spacing rule:** about 3 m apart on busy walks so pools overlap · up to 5 m apart on quiet ambience walks.
- **Height rule:** 300–600 mm edge garden paths and lawn borders · 800–1000 mm hold hotel and office courtyard walks.
- **CCT rule:** 2700K where people linger · 4000K where steps and faces must read clearly.

NOTES

- **Ordering suffix:** K3 = 2700K · K4 = 4000K — CO and CS share one platform, so mixed families on one walk glow alike.
- **Supply & build:** 100–240V direct mains · non-dimmable · die-cast AL + PC in Black or Grey.
- **Siting:** 3 m apart where foot traffic is busy · up to 5 m on quiet walks; tall 800–1000 mm arches can sit slightly wider.
- **Family guidance:** for a glowing ring centerpiece see ORB · for a swan-pole lawn accent see GOOS-S.
